

Comodo TrustConnect Software Version 1.72

Windows Client Configuration Guide

Guide Version 1.72.111114

Comodo Security Solutions 1255 Broad Street Clifton, NJ 07013

How To Set Up TrustConnect On Windows

TrustConnect is designed to eliminate many types of data hijacks by preventing criminals from attacking or scanning your system from the local network that you are using to connect to the Internet. It also encrypts all of your traffic destined for the Internet (including Web site addresses, instant messaging conversations, personal information, plain text usernames and passwords and other important information).

The following sections provide step-by-step guidance on how to:

- Download and Install the TrustConnect Windows Client
- Establish a connection to TrustConnect
- TrustConnect System Configuration

Download and Install the TrustConnect Windows Client

To connect to the TrustConnect service you must first download and install the TrustConnect Windows client software:

- Firstly, log into your Comodo Account at https://accounts.comodo.com/ with the user name and password that you created during the TrustConnect or CIS Pro enrollment process.
- Click the 'TrustConnect' tab on the top navigation bar.
- Click 'Download TrustConnect for Windows':

Alternatively, the TrustConnect Windows client can be downloaded direct from the following URL:

https://accounts.comodo.com/download/trustconnect/ComodoTrustConnectClient.exe

After downloading the TrustConnect Windows setup file to your local hard drive, double click on ComodoTrustConnect.msi to

start the installation wizard.

Step1: Click 'Run'

Simply click 'Run' at the file download dialog to launch the installer.

File Down	nload - Security Warning
Do уоц	u want to run or save this file?
	Name: ComodoTrustConnectClient.exe Type: Application, 1.06MB From: us4.download.comodo.com
	Run Save Cancel
	While files from the Internet can be useful, this file type can potentially harm your computer. If you do not trust the source, do not run or save this software. <u>What's the risk?</u>

Step 2: Welcome dialog

Simply click 'Next'.

Step 3: End User License Agreement

The End-User License Agreement dialog box will be displayed.

Exit	

By default, your TrustConnect client will automatically select the best TrustConnect access server from the servers distributed all over the world depending on your location, distance between you and the servers and their load. You can change the server you want to connect to, through **Advanced Options** explained below. Also TrustConnect is available in multiple languages. You can change the interface language through the **Language** option, explained at the foot of the page.

After starting TrustConnect you should enter your TrustConnect Service Login and Service Password at the client login box.

Note: this is not the same password as your Comodo Account password. It is a unique, random password that was generated during account creation to authenticate you to the TrustConnect servers. If required, you can change this password to something more memorable by using the 'Change Service Password' button on the right.

Connected

Click 'OK' to confirm and connect. After successful authentication of your user-name and password, the tray icon will turn green to indicate that you are successfully connected to TrustConnect:

Your location: US, Houston, IP: 69.93.174.106	
 Automatically select best server I want to connect to server in: 	
US, Atlanta (distance: 1123km. loading: 12%)	•
C Let me choose each time I connect	
	Select

You can configure the server selection from the options:

- Automatically select the best server
- I want to connect to server in •
- Let me choose each time I connect.

Select the option and click the 'Select' button for your settings to take effect.

Automatically select the best server

Instructs TrustConnect to select the best access server with optimal load and distance to connect to. Your TrustConnect client will automatically find a server nearest to your location and with optimal connection load. This is the default option and is recommended for all users.

I want to connect to server in

Allows you to choose a server and to set it as default, so that every time you start TrustConnect service, you will be connected to the selected server irrespective of your location. The drop-down box displays a list of TrustConnect access servers located at different places, all over the world. Each server is indicated with its location (country, state), distance from your current location and the load of the server in percentage.

Advanced options (3
Your location: US, Houston, IP 69.93.174.106	
O Automatically select test server.	
I want to connect to server n:

C US, Atanta (distance: 1123km, bading: 12%) US, Houston (distance: 0km, loading: 4%)	
Sdect	

Select the server which you want to set as default and click the 'Select' button.

Note: It is always recommended to choose a server nearest to your location for quicker access.

A connection to the selected server will be established every time you connect to TrustConnect . You can change this setting at anytime you want, by accessing the Advanced Options in TrustConnect.

Let me choose each time I connect

Allows you to select a different server each time you are establishing a connection with TrustConnect. Every time you start TrustConnect service, you will be prompted to select the server which you wish to connect. On establishing a connection to TrustConnect, a 'Select access server' dialog will appear.

Select access server	8
Your location: US . Houston. IP: 69.93.174.106
