## Introduction to Service Desk

- Comodo Service Desk is a web based ticketing and support platform used by enterprises and service providers to manage user support requests.
- After creating an account, you can raise support queries by creating tickets in the help desk portal.
- This guide explains how you can register for a service desk account, submit support tickets, view the knowledge-base and more.
  - **Register an account**
  - **Open a New ticket in Service Desk**
  - **Check ticket status**

### Register an Account

You need to sign-up for a Service Desk account in order to submit tickets. There are two ways to register an account:

- **Self Enrollment at the web portal**
- **Enrollment by a staff member**

**Note:** You might be able to submit tickets as a guest, without registering, if your administrator has enabled this feature. However, you can only check your ticket status in the portal after registration.

### Self Enrollment at the Web Portal

- Your administrator will send you the URL of the support portal.
- You can register your account by entering your email address and password.
- You will then receive an activation mail.
- Clicking the link in the mail to activate your account.

### Sign-up for an account

- Visit the web-portal at the URL provided by your administrator
- Click 'Sign-in' at the top right

The login page is shown:

**SUPPORT CENTER**

**Note:** The form you see may differ to the one shown above. The layout is configured by your admin. The above shows the default fields and labels.

- Complete the new ticket form:
  - **Category** - Select the help topic on which you need help.
  - **Email Address** - Your contact email address. Your email address doubles up as your username to login to your account.

- **Full Name** - Enter your first and last names.
  - **Phone Number** - Your contact phone number (optional)
  - **Issue Summary** - Describe your problem.
  - **Issue Details** - Enter a more detailed description of the issue.
  - **Attachments**- Add screenshots, documents or files to support your request.
  - **Priority Level** - Select the urgency level of your ticket. The options are: low, normal, high or critical.
  - **Asset Type** - Select the type of device which your issue concerns
  - **Category** - The type of request you are reporting. Examples include 'General Inquiry' and 'Report a problem'.
  - **Sub Category** - Choose a specific item within the category. For example, 'Overheating' may be a sub-category of 'Report a problem', and 'Billing question' might be a sub-category of 'General Inquiry'.
- Click 'Create Ticket'.
  - Click 'Reset' to clear form data
  - Click 'Cancel' to close the ticket without saving details

You will see an acknowledgment screen and also receive a confirmation email. You can check ticket status by entering your email address and the ticket number in the help desk portal.

## Registered User

### Create a ticket as a registered user

- Login to your help desk web portal at the URL provided by your administrator.

The portal should open at the 'Open New Ticket' page by default.

- Alternatively, click 'Open New Ticket' in the top-menu:

## Open a ticket via email

You create a ticket by sending a mail to the support address provided by your help desk. You will receive an automated reply (if enabled by the administrator) with ticket details. You can then check the **ticket status** from the web portal.

## Open a ticket over phone

If you speak to support over the phone, the staff member may create a ticket on your behalf. You will receive an automated reply (if enabled by the administrator) with the ticket details. You can then check the **ticket status** from the web portal.

## Check Ticket Status

Registered users and guests can check their tickets as follows:

### Registered Users

Registered users should first sign-in into their account at the help-desk web portal:

### View your tickets

- Login to your help desk web portal
- Click 'Tickets' from the top

The screenshot shows the 'SUPPORT CENTER Support Ticket System' interface. At the top right, there are links for 'Atlas | Profile | Tickets (1) - Sign Out'. Below this is a navigation bar with three items: 'Support Center Home', 'Open A New Ticket', and 'Tickets (1)'. The 'Tickets (1)' item is circled in red. Below the navigation bar, there is a search box and a dropdown menu set to 'Open (1)', with a 'Go' button and a 'Refresh' button. A table shows 'Showing 1 - 1 of 1 Open Tickets' with one row: Ticket # 8, Create Date 03/04/2019, Status Open, Subject System Overheats, Department Support, and Phone Number. The page number 'Page: 1' is shown at the bottom left, and the copyright notice 'Copyright ©2019 ITarian All Rights Reserved.' is at the bottom center.

- The total number of tickets you have open is shown at top-right.
- Search tickets - Enter a word or sentence from the ticket in the search box, select a ticket status (open or closed) then click the 'Go' button.
- Click a ticket number or the subject to view the ticket thread.
- This contains your initial request and all staff responses.
- To post a reply, type your response and click the 'Post Reply' button.

Depending on the settings implemented by the administrator, the button below the 'Ticket Number' field will be either 'View Ticket' or 'Email Access Link'.

- **View Ticket** - Will validate your email address and ticket number then open your ticket.
- **Email Access Link** - A verification mail will be sent to your email ID. Click the verification link in the mail to view your ticket.

To post a reply, enter your response to the ticket and click the 'Post Reply' button at the bottom.

## About Comodo Security Solutions

Comodo Security Solutions is a global innovator of cybersecurity solutions, protecting critical information across the digital landscape. Comodo provides complete, end-to-end security solutions across the boundary, internal network and endpoint with innovative technologies solving the most advanced malware threats. With over 80 million installations of its threat prevention products, Comodo provides an extensive suite of endpoint, website and network security products for MSPs, enterprises and consumers.

Continual innovation and a commitment to reversing the growth of zero-day malware, ransomware, data-breaches and internet-crime distinguish Comodo Security Solutions as a vital player in today's enterprise and home security markets.

## About Comodo Cybersecurity

In a world where preventing all cyberattacks is impossible, Comodo Cybersecurity delivers an innovative cybersecurity platform that renders threats useless, across the LAN, web and cloud. The Comodo Cybersecurity platform enables customers to protect their systems and data against even military-grade threats, including zero-day attacks. Based in Clifton, New Jersey, Comodo Cybersecurity has a 20-year history of protecting the most sensitive data for both businesses and consumers globally. For more information, visit [comodo.com](https://www.comodo.com) or our [blog](#). You can also follow us on [Twitter](#) (@ComodoDesktop) or [LinkedIn](#).
