Creating Trust Online®

# Comodo
# Certificate Manager

## Code Signing End User Guide
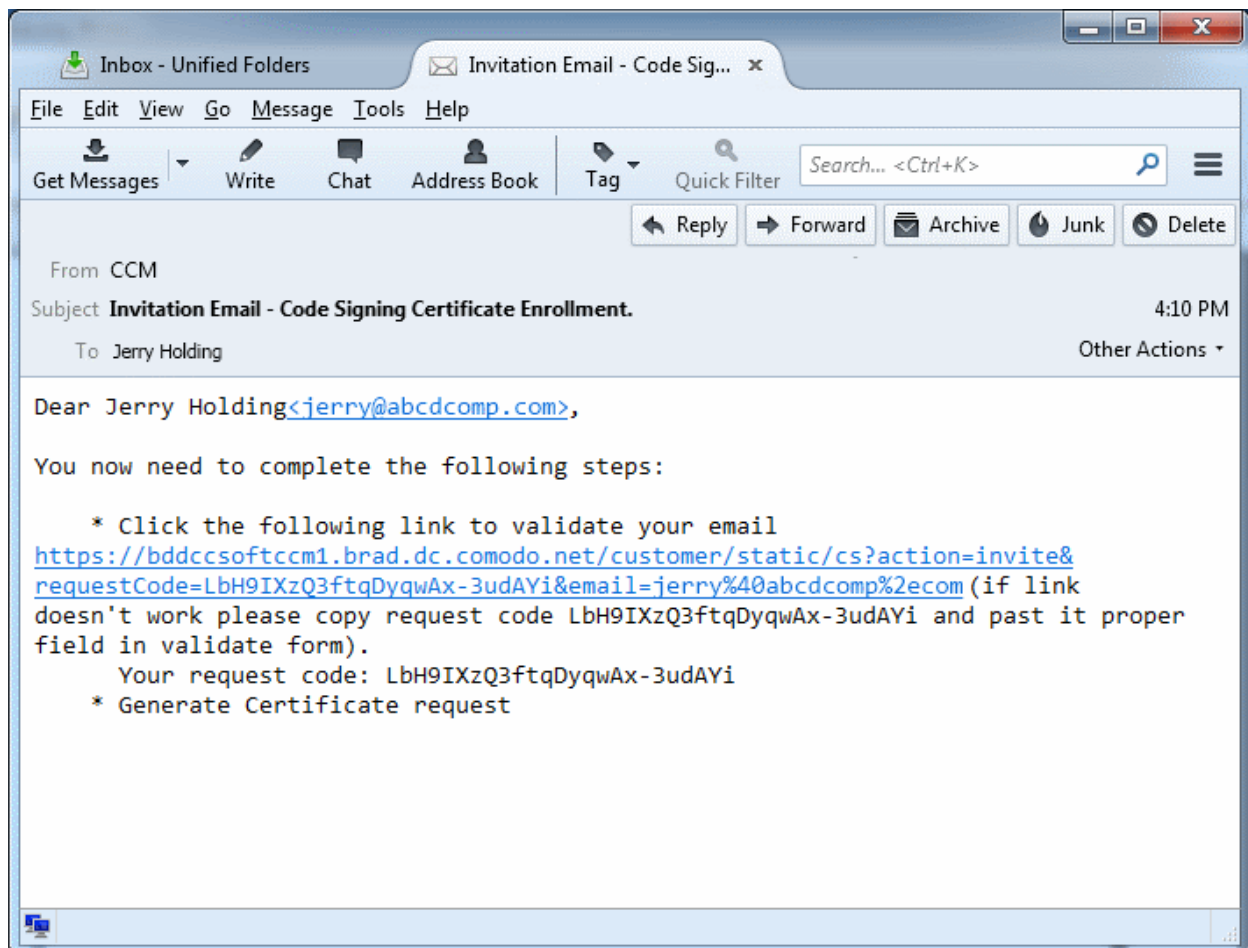

# Step 1: Validate Your Application

Your Code Signing Certificate administrator should have sent you a certificate provisioning email. The invitation mail contains a link for validation your email address, a request validation code and instructions for downloading and collecting the certificate.

A link to the certificate enrollment pages will be similar to:

https://cert-manager.com/customer/<company_name>/cs

- Click the enrollment link in your mail to validate your email. You will be taken to the Step 2 - 'User Registration' form

# Step 2: Complete the Application Form

## Form Parameters

| Form Element | Type | Description |
|---|---|---|
| Code (*required*) | Text Field | The Code field will be auto-populated with the certificate request code, on clicking the validation link in the email. If not, you can copy the request code from the email and paste in this field. |
| Email (*required*) | Text Field | Your email address. This field will be auto-populated. |
| Private Key Options | | |
| Key Size | Drop Down | You can select the key size for the private key of the certificate (Default = 2048 bit) |

| Form Element | Type | Description |
|---|---|---|
| | | Note: The private key is generated locally by the crypto module of the browser/ operating system. The key never leaves the computer and no copy is ever transmitted to the certificate issuer. Comodo does not collect a  copy of the private key at any time and cannot be recovered if it is lost. The certificate is useless without it.  Hence you are strongly advised to backup your private key, during certificate installation process. |
| Subscriber Agreement (*required*) | Checkbox | You must accept the terms and conditions before submitting the form. |
| Generate | Control | Starts the certificate generation process. |

- Fill-in the form, accept to the subscriber agreement by reading it and selecting the checkbox 'I Agree' and click the 'Generate' button.

The certificate request  will be automatically generated and a request will be sent to Comodo **Certificate Manager**.

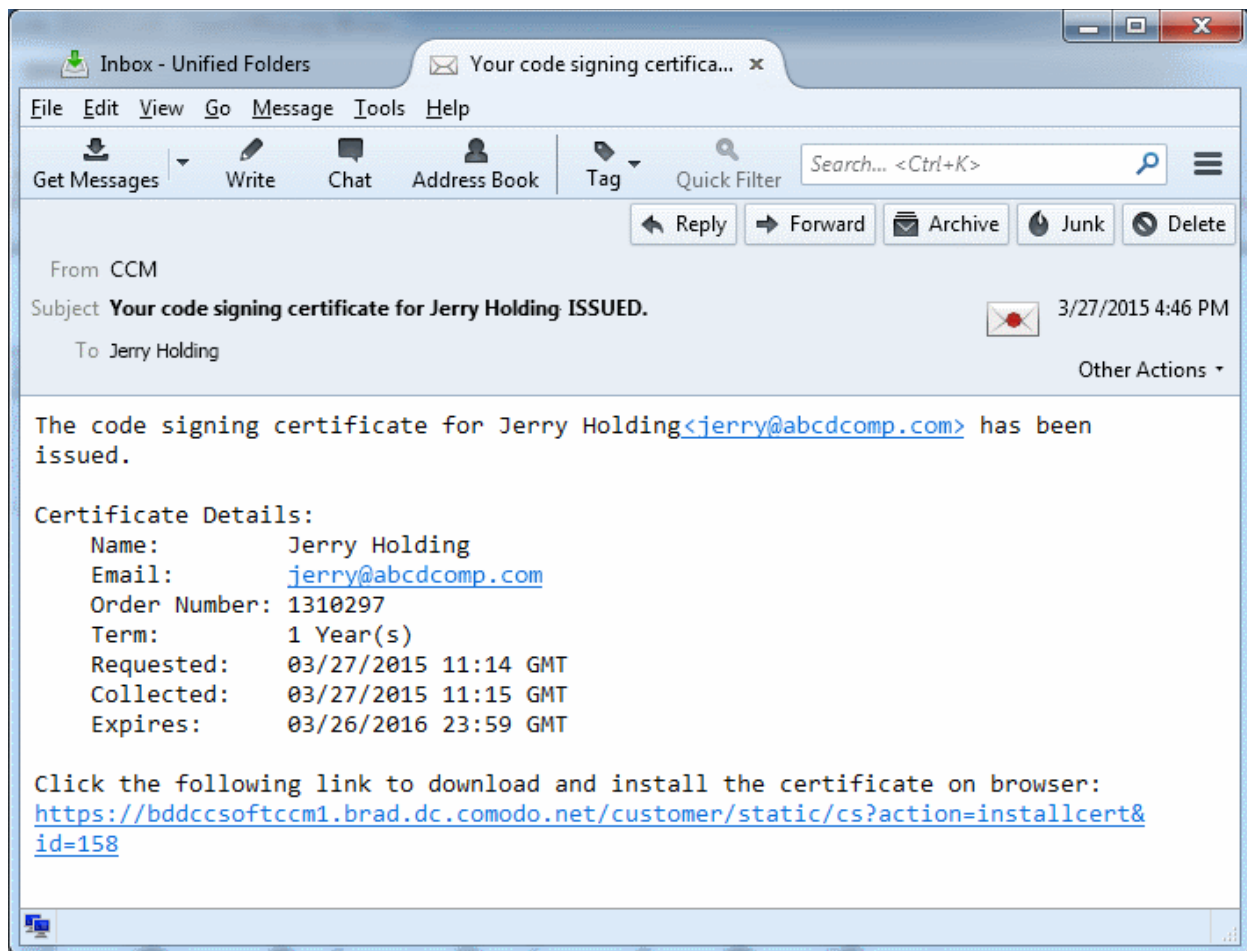

Once the registration process is completed, you will be sent a certificate collection email.

- Click the link in the certificate collection email.

# Step 3: Collect Your Certificate

- Click the link in your confirmation email to download and install your certificate.

After installation you can use the certificate to digitally sign executables.

Note: Please keep a backup copy of your certificate.

# About Comodo

The Comodo organization is a global innovator of cybersecurity solutions, protecting critical information across the digital landscape. Building on its unique position as the world's largest certificate authority, Comodo authenticates, validates and secures networks and infrastructures from individuals to mid-sized companies to the world's largest enterprises. Comodo provides complete end-to-end security solutions across the boundary, internal network and endpoint with innovative technologies solving the most advanced malware threats, both known and unknown. With global headquarters in Clifton, New Jersey, and branch offices in Silicon Valley, Comodo has international offices in China, India, the Philippines, Romania, Turkey, Ukraine and the United Kingdom.
