Step 1: Requisition of Provisioning Email

Your Code Signing Certificate administrator should have sent you a certificate provisioning email. The invitation mail contains a link for validation your email address, a request validation code and instructions for downloading and collecting the certificate.

A link to the certificate enrollment pages will be similar to:

https://cert-manager.com/customer/<company_name>/cs

- Click the enrollment link in your mail to validate your email. You will be taken to the Step 2 - 'User Registration' form.
Step 2: 'User Registration' form

Comodo Certificate Manager

User Registration

Form Parameters

<table>
<thead>
<tr>
<th>Form Element</th>
<th>Type</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Code (required)</td>
<td>Text Field</td>
<td>The Code field will be auto-populated with the certificate request code, on</td>
</tr>
<tr>
<td></td>
<td></td>
<td>clicking the validation link in the email. If not, you can copy the request</td>
</tr>
<tr>
<td>Email (required)</td>
<td>Text Field</td>
<td>Your email address. This field will be auto-populated.</td>
</tr>
<tr>
<td>Advanced</td>
<td>CSP</td>
<td>You can select the cryptographic service provider for the certificate from</td>
</tr>
<tr>
<td>Private Key Options</td>
<td></td>
<td>the drop-down (Default = Microsoft Cryptographic Provider v1.0)</td>
</tr>
<tr>
<td>Key Size</td>
<td>Drop Down</td>
<td>You can select the key size for the private key of the certificate (Default</td>
</tr>
</tbody>
</table>
Form Element | Type | Description
--- | --- | ---
Exportable | Checkbox | You can choose whether or not the certificate is exportable.
User Protected | Checkbox | If enabled, you will be asked to set password and security levels during the certificate collection process. Windows will prompt you for a password and/or your permission every time you access your certificate to code sign.
Subscriber Agreement (required) | Checkbox | You must accept the terms and conditions before submitting the form.
Generate | Control | Starts the certificate generation process.

- Fill-in the form, accept to the subscriber agreement by reading it and selecting the checkbox 'I Agree' and click the 'Generate' button.

The certificate request will be automatically generated and a request will be sent to CCM.

Once the registration process is completed, you will be sent a certificate collection email.
- Click the link in the certificate collection email.
Step 3: Installation the Certificate

- Clicking the link will take you to the certificate download page.

After downloading the certificate, you can install it on the browser and can be used to digitally sign the executables.

**Note:** Keep a back up copy of that certificate.
About Comodo

The Comodo companies are leading global providers of Security, Identity and Trust Assurance services on the Internet. Comodo CA offers a comprehensive array of PKI Digital Certificates and Management Services, Identity and Content Authentication (Two-Factor - Multi-Factor) software, and Network Vulnerability Scanning and PCI compliance solutions. In addition, with over 10,000,000 installations of its threat prevention products, Comodo Security Solutions maintains an extensive suite of endpoint security software and services for businesses and consumers.

Continual innovation, a core competence in PKI and a commitment to reversing the growth of Internet-crime distinguish the Comodo companies as vital players in the Internet's ongoing development. Comodo, with offices in the US, UK, China, India, Romania and the Ukraine, secures and authenticates the online transactions and communications for over 200,000 business customers and millions of consumers, providing the intelligent security, authentication and assurance services necessary for trust in on-line transactions.
