# Introduction to Comodo Cleaning Essentials

Comodo Cleaning Essentials (CCE) is a set of computer security tools designed to help users identify and remove malware and unsafe processes from infected computers. As a lightweight, portable application it requires no installation and can be run directly even from removable media such as a USB key, CD or DVD. The application provides high levels of visibility and control over system processes and the ability to configure customized scans from the granular options menu.

Major features include:

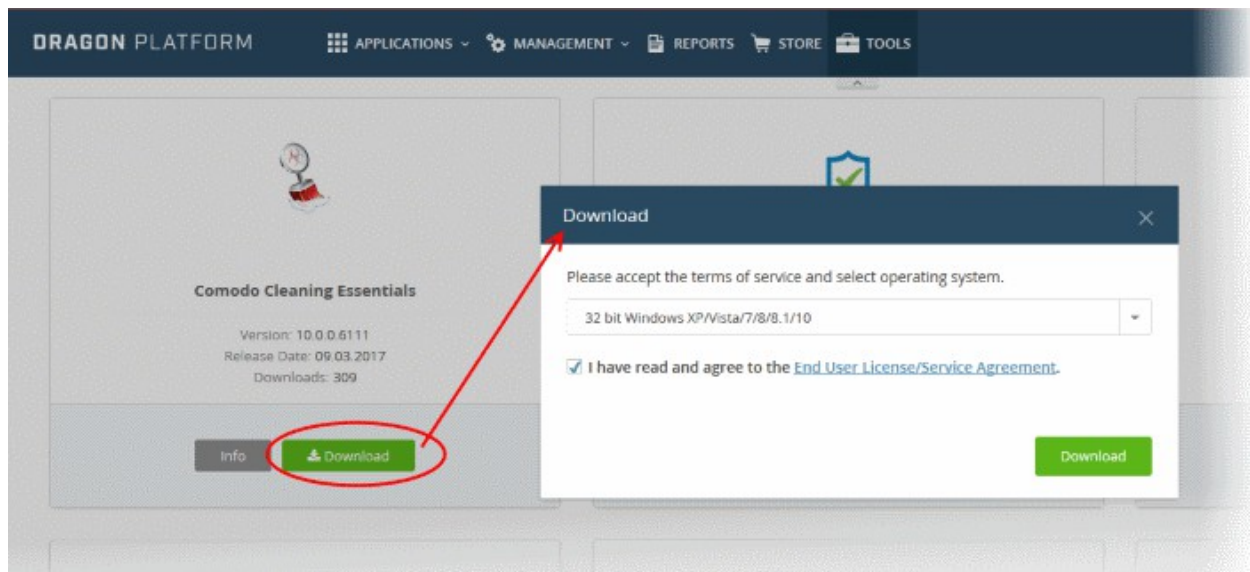

- **KillSwitch** - an advanced system monitoring tool that allows users to identify, monitor and stop any unsafe processes that are running on their system.
- **Malware scanner** - Fully customizable scanner capable of unearthing and removing viruses, rootkits, hidden files and malicious registry keys hidden deep in your system.
- **Autorun Analyzer** - An advanced utility to view and handle services and programs that were loaded when your system booted-up.

Administrators can download the application from the tools interface of the Comodo Dragon console and transfer it to required endpoint and quickly and easily run scans both on-site and through remote desktop.

This document is intended to guide you through the process of downloading the application from the Dragon Platform administrative console. For more details on using the application, refer to the dedicated online help guide at <https://help.comodo.com/topic-119-1-328-3516-Introduction-to-Comodo-Cleaning-Essentials.html>.

## To download the CCE application

- Login to your Comodo Dragon account at <https://platform.comodo.com/app/login>
- Click 'Tools' on the top-menu.
- Click 'Download' in the 'Comodo Cleaning Essentials' tile

- Click 'Info' to view detailed description of the CCE tool.
- Read and agree to the EULA
- Choose the operating system from the drop-down
- Click 'Download' to download a zip file containing CCE application.

For more details on using the application, see the online user guide at <https://help.comodo.com/topic-119-1-328-3516-Introduction-to-Comodo-Cleaning-Essentials.html>.

## About Comodo Security Solutions

Comodo Security Solutions is a global innovator of cybersecurity solutions, protecting critical information across the digital landscape. Comodo provides complete, end-to-end security solutions across the boundary, internal network and endpoint with innovative technologies solving the most advanced malware threats. With over 80 million installations of its threat prevention products, Comodo provides an extensive suite of endpoint, website and network security products for MSPs, enterprises and consumers.

Continual innovation and a commitment to reversing the growth of zero-day malware, ransomware, data-breaches and internet-crime distinguish Comodo Security Solutions as a vital player in today's enterprise and home security markets.

## About Comodo Cybersecurity

In a world where preventing all cyberattacks is impossible, Comodo Cybersecurity delivers an innovative cybersecurity platform that renders threats useless, across the LAN, web and cloud. The Comodo Cybersecurity platform enables customers to protect their systems and data against even military-grade threats, including zero-day attacks. Based in Clifton, New Jersey, Comodo Cybersecurity has a 20-year history of protecting the most sensitive data for both businesses and consumers globally.
