COMODO Creating Trust Online*

1. Introduction to Comodo Mobile Security for iOS

Comodo Mobile Security (CMS) protects iOS devices against harmful websites, eavesdropping, identity theft and more.

Features:

- VPN Private, secure and anonymous internet access. Unlimited traffic for premium users.
- Safe Browsing Advanced web filter protects you online by instantly blocking harmful websites.
- ID Protection Receive alerts if your personal data is found on the dark or deep web

CMS is available as free and paid versions:

- Free
 - Safe browsing
 - ID Protection Protection for one email address (your sign-up address).
- Paid Available in monthly and yearly subscription models
 - Safe Browsing
 - ID Protection Protect up to 10 email addresses
 - VPN Unlimited traffic

All other features are the same for both versions.

COMODO Creating Trust Online*

Guide structure

- Introduction to Comodo Mobile Security for iOS
- Download and Install Comodo Mobile Security
- Create a CMS Account
- Sign-in to your CMS Account
- Upgrade your Account
- Safe Browsing
- Virtual Private Network (VPN)
- ID Protection
- View Notifications
- About Comodo Mobile Security
- Terms of Service
- Privacy Policy

2. Download and Install Comodo Mobile Security

You can download Comodo Mobile Security (CMS) from the Apple App Store at https://itunes.apple.com/cy/app/comodo-mobile-security/id1448853386

Note: You need an Apple account to download CMS from the App Store.

3. Create a CMS Account

You need to create a Comodo Mobile Security (CMS) account to enable the following services:

- ID Protection
- VPN

Safe browsing does not require a CMS account.

Sign-up is quick and easy:

- Open CMS on your mobile device
- Touch the user icon at the bottom-right of the home screen
- Open the 'Sign up' tab at top-right

- Email Enter your contact mail address. This will double up as your account login name.
- Password Create an account password and confirm it.
- Touch 'Register' to submit your request

COMODO Creating Trust Online*

• Tap 'Next' after reading 'Terms of Use' and 'Privacy Policy'

We will send an account activation mail to your contact email address:

COMODO Creating Trust Online*

- Simply touch the activation link in the mail to activate your account.
- As a thank-you for using CMS, we also add your contact email address to our 'ID Protection' service, free of charge. Our 24/7 monitoring service will alert you if your address is found on the dark or deep web.
- · You can protect multiple email addresses by upgrading to a CMS Premium account.

4. Sign-in to your CMS Account

- Open CMS on your mobile device
- Touch the user icon at the bottom-right of the home screen
- Make sure the screen is open at the 'Sign In' tab:

COMODO Creating Trust Online*

- Enter your new password and confirm it.
- Hit 'Save'

• Your new password is activated. Tap 'Next' to open CMS login screen.

5. Upgrade your Account

A premium account lets you enjoy unlimited VPN traffic and offers protection for up to ten email accounts.

- · Open the CMS app and sign in to your account
- Select 'Upgrade to Premium' or 'Upgrade' on the home screen:

COMODO Creating Trust Online*

You can purchase a premium account directly, or use 'Offerwall' to get premium for free:

COMODO Creating Trust Online*

- Direct purchase Select a monthly or annual package on the left
- **Offerwall** Select 'Get for Free' on the right and choose an offer from one of our partners. Complete the offer enrollment process to obtain your free CMS premium account. Typical offers include downloading a partner app or solving a puzzle.

6. Safe Browsing

'Safe Browsing' is a website filter which protects you online by blocking malicious, suspicious and phishing websites.

- Note Make sure you are enable permissions for CMS on your device (iOS 'Settings' > 'Safari' > 'Content Blocker')
- Supported browsers iOS browser (Safari), Samsung browser, Opera and Chrome

Enable secure browsing

- Open the CMS app
- Login to your account (optional)
- Tap 'Safe Browsing' on the home screen

COMODO Creating Trust Online*

• Next, enable the CMS safe browsing feature:

• Tap 'OK' to be taken to 'Settings' > 'Safari' > 'Content Blocker'.

COMODO Creating Trust Online*

- Toggle the slider to 'On'
- CMS status will change accordingly
- If you have not given accessibility permission, CMS downloads the database of malicious websites. This constantly updated database protects you online against suspicious and phishing websites.

Disable Safe Browsing

• Touch the 'Safe Browsing' tile to access feature settings:

COMODO Creating Trust Online*

Hit 'Yes' to disconnect

7. Virtual Private Network (VPN)

- · A VPN allows you to securely and anonymously connect to the internet from any location
- This is especially useful to protect your communications when using public WiFi (cafes, airports, parks etc)
- · Because all your traffic is encrypted, a VPN is also useful for sending or receiving sensitive information
- The VPN service is available only on premium accounts. Traffic is unlimited. See 'Upgrade your CMS Account' if you need help to get Premium.

Configure the VPN service

- Open the CMS app
- Login to your account
- Tap 'VPN' on the home screen

COMODO Creating Trust Online

• Select the server location from the drop-down and tap 'OK'

COMODO Creating Trust Online

Tap 'Allow' to let CMS to setup your VPN connection:

- Note the screen above only appears on the first connection.
- The key icon at top-left shows that the VPN is active:

COMODO Creating Trust Online*

To disconnect the VPN, tap the VPN tile

8. ID Protection

- The deep and dark webs are where cyber-criminals exchange stolen data. A significant chunk of this data is compromised email accounts and credit card numbers.
- Email addresses are of great value to hackers because many online portals also use them as your login name. If your email is on found on the dark web, there's a chance that they also have the corresponding password.
- Your email address might be only part of a larger trove of your personal information. For example, the hackers may also have your social security number, home address or more.
- CMS continually monitors the dark/deep web and will alert you if it finds your email ID.
- We automatically add your sign-up email to the protection program, free of charge. You can protect more email IDs by upgrading to CMS premium. See 'Upgrade your CMS Account' for help to do this.
- · Coming soon Credit card and social security number protection

Configure email ID protection

- Open the CMS app
- Login to your account
- Tap 'ID Protection' on the home screen

COMODO Creating Trust Online

COMODO Creating Trust Online

• Email accounts - The number below the mail icon shows how many email addresses are protected. Touch anywhere on the row to check for breaches. CMS will search immediately and show the result. Click here to view the result.

Add email addresses for protection

- Open the CMS app
- Login to your account
- Open 'ID Protection' on the home screen
- Touch the '+' button:

🔐 Turkcell 🗢 👘		0 %69 💻)

About Comodo Security Solutions

Comodo Security Solutions is a global innovator of cybersecurity solutions, protecting critical information across the digital landscape. Comodo provides complete, end-to-end security solutions across the boundary, internal network and endpoint with innovative technologies solving the most advanced malware threats. With over 80 million installations of its threat prevention products, Comodo provides an extensive suite of endpoint, website and network security products for MSPs, enterprises and consumers.

Continual innovation and a commitment to reversing the growth of zero-day malware, ransomware, data-breaches and internet-crime distinguish Comodo Security Solutions as a vital player in today's enterprise and home security markets.

About Comodo Cybersecurity

In a world where preventing all cyberattacks is impossible, Comodo Cybersecurity delivers an innovative cybersecurity platform that renders threats useless, across the LAN, web and cloud. The Comodo Cybersecurity platform enables customers to protect their systems and data against even military-grade threats, including zero-day attacks. Based in Clifton, New Jersey, Comodo Cybersecurity has a 20-year history of protecting the most sensitive data for both businesses and consumers globally. For more information, visit comodo.com or our **blog**. You can also follow us on **Twitter** (@ComodoDesktop) or **LinkedIn**.
